

BACKGROUND CHECKS - MO

Every state's background check requirements may be different. Although you may have cleared a background check for the state where you registered or re-registered, assignors in the state you are applying to work may not accept it. Background check requirements are mandated by each state's SRC. Here are instructions for obtaining a background check meeting MO's requirements.

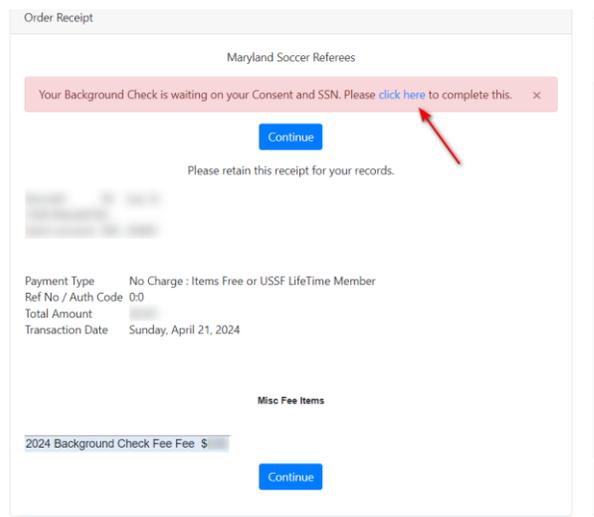

1. On your Home page, select the **Update SafeSport/Background Check** link in the **Administration** dropdown menu.

2. The next screen will advise you to complete the checkout process for your background check from your Home page.

3. Once you have completed the checkout, you will see a receipt, which will include a link to authorize your background check. This link will also appear on your Home page.

4. This will direct you to JDP's secure site, where you can authorize your background check.
